The Alternatives to Violence Project (AVP) began in 1975. An inmate group at Green Haven Prison in New York sought assistance from local Quakers to reduce inmate violence, and as inmates partnered with Quakers, AVP was born. AVP programs are in demand in schools, prisons and youth groups in 35 US states and over 45 countries.

You will learn to:

Speak honestly without attacking,
Offer Support while taking risks,
Resolve daily conflicts without reactivity.
